

VR -VIBRATING RECTANGULAR SCREEN AND SEPARATOR

SUITABLE FOR ALL SECTORS OF FOLLOWING INDUSTRIES: CHEMICALS, PHARMACEUTICAL, PLASTIC, CERAMICS, FOOD, MINNINGS, METAL POWDERS, SUGAR

Rectangular vibrating screens, are the real alternative to the circular screens, when high capacity is required. It is possible to manufacture the screens in stainless or carbon steel and suitable for sieving powder or granules up to 4 screening. Simplicity, easy to maintenance and availability are the most important characteristics of this kind of machines.
